

# ALUCAR

## XL-series Timber Bunks

XL 3 and XL 5 are 7 tons capacity bunks made of high quality steel alloys. XL bunks are designed for very rough and demanding road conditions. According to our experience this bunk model has turned out being extremely secured choice with its reliability and low maintenance.

## ***XL 3***

- Equipped with conical stakes
- Full steel timber bunk

## ***XL 5***

- Equipped with telescopic stakes
- Lower part of stake is steel and extendable part is made of aluminum
- Stake height 2400 – 2850 mm
